**DevOps & Tools:** Linux, Docker, Git, GitHub, Jenkins

**Collaboration:** Agile/Scrum, Jira, Figma (basic), Technical Documentation, Client Communication

## PROFESSIONAL EXPERIENCE

### PHP Backend Engineer

**Crescentic Digital** | Pakistan | Aug 2024 - Dec 2024

- **Performance Optimization:** Upgraded Magento 2 stores for 3 major brands (Avène USA, Rene, Klorane), achieving 30% reduction in page load times and ensuring 100% PHP 8.2 compliance
- **Process Automation:** Developed 10+ console commands and cron jobs, improving system efficiency by 15% and reducing manual workload
- **Frontend Development:** Designed and implemented responsive WordPress UI components with modern layouts
- **Project Leadership:** Managed complete module lifecycle from planning through deployment using Jira project management system
- **Web Development:** Developed and maintained backend applications using the Symfony framework, including a marketing blog platform and a learning management site.

### Software Engineer

**A.A Logics Pvt Ltd** | Pakistan | Aug 2022 - Jul 2024

- **API Integration:** Successfully integrated 5+ supplier APIs (GraphQL/REST) for real-time product synchronization, reducing data processing delays by 90%
- **Database Optimization:** Optimized MySQL queries and database structure, achieving 20% improvement in query response time
- **Custom Development:** Designed and developed custom Magento modules that enhanced operational flexibility, enabling client business scaling and reducing development time by 15%
- **System Architecture:** Contributed to scalable backend solutions supporting high traffic.

### **Junior Executive**

**ProByte** | Pakistan | Jun 2021 - Aug 2022

- **Full-Stack Development:** Built customer-facing logistics portals using PHP, JavaScript, and jQuery with focus on user experience.
- **Customization and Integration:** Developed custom Symfony bundles to extend functionality and integrate with third-party services, enhancing the features of a learning management system.
- **Backend Expertise:** Developed comprehensive backend solutions using PHP, Laravel, and CodeIgniter frameworks.
- **Code Quality:** Delivered maintainable and functional web solutions following best practices.

### **EDUCATION**

#### **Master of Science in Data Science**

Arden University, Germany

2024 - 2025

#### **Bachelor of Science in Computer Science**

Muhammad Ali Jinnah University, Pakistan

2018 - 2022

### **LANGUAGES**

**German** – A2 (*currently improving*)

**English** – Proficiency

### **ADDITIONAL INFORMATION**

Willing to relocate or work hybrid.
